THE EMPIY CRADLE. Lovingly the mother lingers O'er the empty cradle bed;

On the pillow is a slight print Of a baby's shining head, But no form is gently folded In the blankets soft and white: No blue eyes are upward gazing For the mother's last good-night. Little feet whose restless prattle

New in death are hushed forever; Never will they meet her more. And the tears she can not smother Gently fall like summer rain. Not on earth, but up in Heaven, Mothers meet their babes again.

THE REASON WHY BLACK

Is sold 500 miles from Coal Creek is easily answered by those who have used it.

In the first place, it is very rich in heating qualities, and at the same time hard and clean. To heat a room of a given size will, of course, require a certain amount of carbon; now, if you have a pure coal like the Black Diamond, the room will be warm and comfortable with the least amount of coal, while if the coal is of a poor quality it will take from fifty to one hundred per cent, more to give out the same heat, thereby materially increasing the

cost of your fuel. This is the reason why this coal la shipped 500 miles or more, coming directly in contact with coals that are within five or ten miles of the cities and towns where the Black

Diamond is sold,
